

# Helping you get patients on treatment today

The sample box helps your patients have  
a smooth start on RHAPSIDO (remibrutinib)

## What's Inside

60 tablets of  
RHAPSIDO® (25 mg)  
2 bottles = 30-day supply

**Patient Information Guide**  
Background on what patients  
can expect when starting  
RHAPSIDO®

**Support Resources Card**  
An overview of access and  
financial support options

## Important reminders for patients

- RHAPSIDO is a pill taken by mouth, twice a day, with or without food
- RHAPSIDO is not another antihistamine. It's not an injection. It's a different way to treat chronic hives
- The sample box gets patients on treatment while their prescription gets filled

**Rhapsido®**  
(remibrutinib) 25mg tablets

# Initiating treatment and support for your CSU patients
